WEB DEVELOPER

manthanakabri999@gmail.com | +91 9016755950 |  mdakbari  Manthan Akbari

PROFILE

Motivated student adept in Python, Java, and Django, keen to contribute programming skills to dynamic projects. Possesses a robust foundation in software development, committed to continuous learning, and poised to add significant value to innovative initiatives through dedication, adaptability, and a passion for staying at the forefront of technological advancements.

PROJECT

Blog Website using Python and Flask

- This is a web application that allows users to create, read, edit, and delete blog posts. Users need to register and log in to their accounts in order to perform these actions.
- Frontend: HTML, CSS, JavaScript, Bootstrap Backend: Python, Flask Database: MySQL

Restaurant Table Booking

- The website simplifies the table booking process for users. Guests can easily browse through available tables, make reservations, and receive instant confirmation or rejection notifications. The restaurant admin has the authority to accept or reject reservations, triggering automated email notifications to users
- Backend: Python, Flask Frontend: HTML, CSS, Bootstrap, Javascript Database: MySQL Email Integration: EmailMessenger

StyeX

- Developing an e-commerce website focused on fashion using HTML, CSS, JavaScript, Python, and Django is a comprehensive approach. Ensure a user-friendly interface with HTML and CSS, implement dynamic features using JavaScript, and leverage the power of Django for efficient backend development
